Ed is very popular around the campus and is liked by all the kids . . . The Administrative Staff says that he does an outstanding job . . . Ed's goal is to become Supervisor of Plant Operations. By Michelle Royce, Yearbook Staff member

CONGRATULATIONS TO THE WILLARD JR. HIGH MATH TEAM!

The Willard Math Team, composed of Anthony Draper, John Fowler, Ryokei Imai and Grace Pang, took part in the East Bay Regional Level Competition of the Math-Counts Contest. This event was sponsored by the Society of Professional Engineers and was held at the Bechtel Engineering Center at the University of California. Competing against sudents from fifteen other schools, Willard's team did very well. Portola of El Cerrito was first; Head-Royce was second, and Willard was third. Of the sixty students in the competition, Royokei was fourth, Grace and Anthony tied for seventh, and John was fifteenth. In addition, Ryokei was second in a special oral competition. Ryokei qualified for the East Bay All Star Team, and will advance to the State Finals to be held at Stanford in April. Farewell to Our
Classmate

8th GRADE STUDENTS: CLASS OF 1989 AT BERKELEY HIGH SCHOOL

It has been but a mere two years that you took your first step out of the world of elementary education into the strange and mysterious realm of secondary schooling. During that time, Willard has served as a bridge . . . refining your skills of learning from elementary school, and introducing you to the realm of knowledge that awaits most of you at Berkeley High School.

An outstanding education awaits you at the high school . . . should you want it. We, at Willard, have provided you with the necessary skills and tools to succeed. You have been taught how to analyze literature, interpret history, explore math concepts and deduce scientific evidence. You have been helped to work individually and collectively on classroom projects and in your physical education courses.

Your Willard experience was unique in that your education was provided within a heterogeneous environment. No one was segregated because of academic ability, sex, or ethnic background. Your educational experience at Willard was truly in the spirit of what education in a democracy ought to be.

We personally salute all of you. Your individual and collective accomplishments are the evidence required that heterogeneous instruction can work. Your participation and cooperation in our program of learning have added a dimension to your future success in American society.

You should have no trepidation about Berkeley High School. True, it is a very large school. Remember: you have the necessary academic skills to succeed in class, and the critical experience to get along with other students.

We wish you well at the high school!
